

Successful competition “Awards of the IFD 2011”

The International Federation for the Roofing Trade has offered this year for the first time a competition “Awards of the IFD” for outstanding standards of workmanship and safety among competent roofing companies. The IFD Awards include four categories to represent the IFD industry:

- Pitched roofing
- Flat roofing
- Metal roofing
- Facade

Fortunately, already in the first competition of this type, 59 projects out of 10 countries have been submitted. Individually these are:

Pitched Roof	18 Objects	9 Countries
Flat Roof	14 Objects	7 Countries
Metal Roof	14 Objects	7 Countries
Facade	13 Objects	6 Countries

Roofers out of following countries have taken part: A, EST, G, H, IRL, NL, PL, SK, UK, USA.

The IFD presiding board is enthused by the pleasantly high participation. We thank everybody who has been involved in the competition. The jury was able to assess that all submitted objects showed a very high quality level of the involved roofers and it was not easy to carry out the evaluation.

Judging was undertaken by a panel of independent professionals overseen by the IFD. In every category, four objects with particular good performance will now be nominated. The winner of every category will be announced at the Gala evening on this year’s IFD congress in Dublin.
